

THE OKORIO PERFORMANCE PARTNERSHIP

A senior-led Workday partner delivering real outcomes.

Okorio is redefining Workday consulting by acting as your performance partner, not just an implementer. Our team of senior experts and former Workday professionals designs practical solutions grounded in operational reality, embeds intelligence into every engagement, and empowers your team to become truly self-sufficient. We build momentum, independence, and long-term success.

WHAT WE DELIVER

Workday HCM & Financials

Net-new deployments, phased rollouts, and customer-side support across the Workday core. Designed around how your business runs, not how the textbook says it should.

Adaptive Planning

A Platinum Solution Provider with 10+ years in the ecosystem. We turn a highly flexible platform into a scalable, best-practice system that holds up in the real world.

AI & Analytics

We turn Workday from a back-office platform into a decision-making engine. Architectures built on Snowflake, Prism, and AWS that connect Workday data to your broader business story.

ActiveCare (AMS)

Strategic, proactive Application Management Services that extend your team rather than replace it. Continuous optimization, update management, and on-demand expertise.

WHY OKORIO

Built for Momentum

We don't finish and disappear. We initiate a cycle of ongoing improvement, quarter after quarter.

Real Operators, Not Just Configurators

Senior operators who understand finance, HR, payroll, planning, and analytics. Experts you can put in front of your CFO.

Intelligence as Your Decision Engine

We embed intelligence into every solution, connecting Workday data to your broader enterprise for a single, trusted view of performance.

Independence, Not Dependence

We measure success by your team's ability to confidently own and evolve Workday. We leave customers stronger than we found them.
